Effective October 1, 1976, the Village of Newtown passed an Earned Income Tax of one percent (1%). The Ordinance applies to any self-employed person, individually owned business, partnership, company, firm or corporation located in or doing business within the municipality. In addition, the tax will apply to the net profit of any business operation.

Anyone who employs one or more persons is required, under the Ordinance, to withhold the amount of tax necessary (1%) and to file and make payment on this tax on a quarterly basis.

Signing below indicates that you have read the above and understand your obligation to file the necessary forms and to pay any tax due, or as the owner of the premises, to inform any business doing work for you that they must file and pay an Earned Income Tax to the Village of Newtown.
